About the Art and the Artist: This piece, a watercolor titled “Fall on the Farm,” was created by a student at the Winston School, a small college preparatory school for “bright students who learn differently.” We’ll let her tell you about herself: “My name is Hannah Dittman, and I am 11 years old, and I am in 6th grade. I attend the Winston School, and some of my favorite things to do are draw, play with animals, and making friends.”
